

I
AM
THE
SOLUTION

SAFBIN IS THE SOLUTION TO MOVE:

From reliance to self reliance
From hunger to food security
From vulnerability to resilience
From isolation to partnership

The overall concept of SAFBIN is around empowering the smallholder communities to maximize the use of available resources in an efficient and effective manner. It is also focusing on ending hunger and building resilience of the smallholder farmers to climate change. The overarching goal of the program is to contribute to SDG2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture. Although the primary focus of SAFBIN is to contribute to SDG 2 “Zero hunger”, the expected outcomes similarly address a number of additional SDGs.

SAFBIN is applying a combination of innovative strategies and approaches to enhance resilience, production and income of smallholder farmers along with sustainable food and nutrition security.

**SAFBIN IS NOT JUST A PROGRAM;
IT IS A MOVEMENT AND IT IS A MISSION**
